EMBANKMENT STABILISATION SCHEME |

May 2026

Trewince Lane Port Navas

We will begin essential work to stabilise the embankment that supports Trewince Lane, starting on Thursday 28 May. We expect the project to take approximately seven weeks to complete.

At the start of the project, there will be a short period of minor disruption while we dig trial pits to identify the location of underground services. During this phase, traffic will be managed with Stop and Go boards, and road users may be asked to wait for a short period while any open trial pits are secured. We will make every effort to minimise disruption and, where possible, carry out these activities outside of peak morning and evening travel times.

The majority of the work will take place off the highway and is not expected to significantly impact vehicle access along Trewince Lane.

Work will take place Monday to Friday between 7.30 am and 5.00pm.

Thank you for your patience and cooperation during these essential works.

 Works area

Why is the work needed?

The embankment has been weakened over time due to erosion from highway run off and Trewince Stream, as well as damage from tree roots and past wind pressure on vegetation.

What work is taking place?

Once we have identified and safeguarded underground services, our work will focus on stabilising the embankment using a combination of soil-filled bags, mesh, and anchors.

We will install a strong wire mesh system to hold the soil-filled bags in place and support the natural regrowth of vegetation. Which we will then secure with five-metre-long anchors.

In carrying out this work, we aim to ensure the area is stabilised and that the essential highway infrastructure remains secure.

Access arrangements

Apart from the initial ground investigations and final resurfacing works, there will be no disruption to road users while the main works are carried out.

Pedestrian access will be maintained with barriers and clear signage in place around our work areas.

For everyone's safety, please observe the signage and any instructions given.

Works in your area

For up-to-date information about roadworks, road closures and diversions, affecting the road network, please visit: [one.network](#)

To find out what we are doing or planning in your area, please see the programming pages on our website: <https://www.cormacltd.co.uk/in-your-area/cornwall/>

Go to the name of your local Community Area Partnership (CAP) under 'More detail for local areas.' Click 'Highways Work Programme.' If you are unsure what your local CAP is, you can find out on the Cornwall Council's website: www.cornwall.gov.uk/people-and-communities/community-area-partnerships/

Getting in touch

For enquiries regarding the stabilisation works, please email: enquiries@cornwallhighways.co.uk

You can report an issue on a road, highway, or footway on the Cornwall Council website: www.cornwall.gov.uk/reportroad

If there is an issue which is a threat to public safety, please telephone 0300 1234 222 (24-hour service) giving details of the location.
